

[Testimonials](#)

## FEATURES

- A versatile testimonial system offering dynamic slider display options.
- Incorporates star ratings for enhanced credibility and user feedback.
- Seamlessly integrates with leading social networks to highlight author profiles.
- Empowers users to submit testimonials effortlessly via a user-friendly frontend form.
- Ensures security and prevents spam with robust reCAPTCHA integration.
- Enables widget functionality for convenient embedding of testimonials and testimonial submission forms.
- Provides extensive configuration settings, allowing customization of slider and form layouts.

## Ultimate Guide for Magento 2 Testimonial

Introducing Magento 2 Testimonial extension offers dynamic testimonial displays, star ratings, social network integration, user-friendly submissions, robust security, and widget functionality for tailored layouts.

- **Dynamic Slider Display:** Present testimonials in an engaging slider format, captivating your customers' attention.
- **Star Ratings for Credibility:** Boost your brand's credibility by showcasing star ratings, building trust, and providing valuable user feedback.
- **Effortless Testimonial Submission:** Empower your users with a user-friendly frontend form, enabling them to submit testimonials effortlessly.
- **Seamless Social Network Integration:** Seamlessly link author profiles to major social networks, adding authenticity and connectivity.
- **Robust Security with reCAPTCHA:** Safeguard your system from spam and ensure security through the robust integration of reCAPTCHA.
- **Convenient Widget Functionality:** Enhance user experience with widget-enabled testimonial embedding, streamlining the process.
- **Layout Customization at its Finest:** Tailor the look to your preference with a rich selection of configuration settings, allowing you to create personalized slider and form layouts.

Experience the next level of testimonial management with our feature-rich extension, meticulously tailored to meet the specific requirements and expectations of your Magento platform. Elevate customer trust, engagement, and conversion rates seamlessly.

# How to install the extension

## 1. Install via composer (recommend)

- Enable maintenance mode **php bin/magento maintenance:enable**
- Run the command **composer require mageinic/testimonial**
- Run the command **php bin/magento module:enable MageINIC\_Core MageINIC\_Testimonial**
- Run the command **php bin/magento setup:upgrade** to install the extension
- Run the command **php bin/magento cache:clean** to clean the cache
- Disable maintenance mode **php bin/magento maintenance:disable**
- Check the store environment if everything is working properly. If, at any point, the store displays an error, check the Magento logger for more details.

## 2. Upload via ZIP/Archive

- Back up your store's database and web directory
  - Download the extension zip file and extract the zip file
  - Transfer the **MageINIC** folder to the Magento 2 **app/code/** directory on the server
  - Enable maintenance mode **php bin/magento maintenance:enable**
  - Run the command **php bin/magento module:enable MageINIC\_Core MageINIC\_Testimonial**
  - Run the command **php bin/magento setup:upgrade** to install the extension
  - Run the command **php bin/magento cache:clean** to clean the cache
  - Disable maintenance mode **php bin/magento maintenance:disable**
  - Check the store environment if everything is working properly. If, at any point, the store displays an error, check the Magento logger for more details.
-

# Extension Configuration

To configure the extension configuration, Please go to **MagelNIC** → **Testimonials** → **Configuration**

Post-installation without backend configuration results in the following visual representation

The screenshot shows the MagelNIC dashboard. The left sidebar contains a menu with the following items: DASHBOARD, MAGelNIC, SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, SYSTEM, and FIND PARTNERS & EXTENSIONS. The 'MAGelNIC' item is highlighted, and its sub-menu is open, showing 'Testimonials' and 'Configuration'. The 'Configuration' item is highlighted with a red box. The main content area shows a 'Reload Data' button and a 'Go to Advanced Reporting' button. Below these, there is a chart area with the text 'Chart is disabled. To enable the chart, click [here](#).' and a table with the following data:

Revenue	Tax	Shipping	Quantity
\$0.00	\$0.00	\$0.00	0

Below the table, there are tabs for 'Bestsellers', 'Most Viewed Products', 'New Customers', and 'Customers'. The 'Bestsellers' tab is selected, and it shows a table with the following data:

Items	Total
1	\$34.00
1	\$34.00
1	\$54.00
1	\$5.00
1	\$59.00

Below the table, there is a table with the following data:

Product	Price	Quantity
Push It Messenger Bag	\$45.00	6
Ur-Satellite UR-105 TA RGG	\$20.00	2
Joust Duffle Bag	\$34.00	2
Fusion Backpack	\$59.00	2
Olivia 1/4 Zip Light Jacket-XS-Black	\$77.00	1

## General

The screenshot shows the 'Configuration' page for MageNIC. The left sidebar contains a menu with categories: GENERAL, CATALOG, SECURITY, CUSTOMERS, SALES, SERVICES, MAGEINIC, and ADVANCED. The 'MAGEINIC' category is expanded, and the 'Testimonials' sub-category is selected. The main configuration area is titled 'Testimonials' and contains several settings, each with a 'Yes' or 'No' dropdown menu. Red boxes and arrows highlight specific settings and their descriptions:

- Enable** (store view): Yes. Enable Testimonials. (Enable testimonial submission functionality on the frontend.)
- Enable Testimonial Form** (store view): Yes. Enable Testimonial Form, grid on Store Front. (Enable testimonial Heading on Slider)
- Enable Testimonial Slider Heading** (store view): Yes. Enable Testimonial Slider Heading on Store Front. (Enable testimonial slider)
- Heading** (store view): What Our Clients Say !!. Heading Of Testimonial. (Insert heading text for the testimonial slider.)
- Sub Heading** (store view): Review from Our Happy Client. Sub Heading Of Testimonial. (Incorporate subheading text for the testimonial slider.)
- Enable Recaptcha** (store view): Yes. Enable Recaptcha. (Activate reCAPTCHA on the frontend for the testimonial form.)
- Enable Slider** (store view): Yes. Enable Slider. (Activate Slider on Home Page)
- Active On HomePage** (store view): Yes. Enable Slider on Home Page. (Enable the 'Company Website' field in the testimonial form on the frontend.)
- Enable website field** (store view): Yes. Enable website field in testimonial form frontend.
- Slider Management**: Configure testimonial slider settings.\*

**Enable** - Enable the testimonial module functionality in the Website via the Yes/No option, the testimonial Grid tab will display after enabling this.

**Enable Testimonial Form** - Enable Testimonial Form, grid, and Tab on Store Front via the Yes/No option.

**Heading** - Put Heading Of Testimonial Slider.

**Sub Heading** - Put Sub Heading Of Testimonial Slider.

**Enable Slider** - Enable Testimonial Slider via the Yes/No option.

**Active On HomePage** - Enable the testimonial slider on the home page via the Yes/No option.

**Enable website field** - Enable the company's website Field in Testimonial Frontend Form via the Yes/No option.

**Enable Recaptcha** - Enable Recaptcha via the Yes/No option,  
For enabling Recaptcha on the testimonial form, Please go to  
**Stores → Settings → Configuration → Customer → Customer Configuration → CAPTCHA.**

The screenshot shows the Magento 2 Configuration interface. On the left sidebar, the 'CUSTOMERS' menu is expanded, and 'Customer Configuration' is highlighted. In the main content area, the 'CAPTCHA' section is selected. The 'Enable CAPTCHA on Storefront' dropdown is set to 'Yes'. The 'Forms' multi-select dropdown is open, showing a list of forms: 'Checkout/Placing Order', 'Create user', 'Login', 'Forgot password', 'Contact Us', 'Change password', 'Payflow Pro', 'Send To Friend Form', 'Share Wishlist Form', and 'Testimonial Form'. The 'Testimonial Form' is highlighted. A red arrow points from the 'Testimonial Form' in the dropdown to the 'Choose the testimonial form for captcha integration' text. Another red arrow points from the 'Customer Configuration' menu item to the 'CAPTCHA' section. A third red arrow points from the 'CAPTCHA' section header to the 'Forms' dropdown. The 'Save Config' button is visible in the top right corner.

**Forms:** Select Testimonial form in this multi-select field and save the data

Following this configuration, the ability to Enable or Disable Recaptcha within the testimonial form will become operational.

After this configuration Enable Recaptcha on the testimonial configuration form.

# Slider Management

The screenshot shows the 'Configuration' page for 'Slider Management' in the MageNIC system. The left sidebar contains navigation links for Dashboard, MageNIC, Sales, Catalog, Customers, Marketing, Content, Reports, Stores, System, and Find Partners & Extensions. The main content area is titled 'Configuration' and includes a 'Scope' dropdown set to 'Default Config' and a 'Save Config' button.

The 'Slider Management' section is divided into several sub-sections:

- General:** Contains settings for 'Arrow for slider', 'Dots for slider', 'Enable infinite looping', 'Autoplay Slider', 'Default Slides to scroll', 'Default Slicks to scroll', and 'Slider speed'. Red arrows point to these settings with labels: 'Enable arrow functionality on the slider', 'Activate pagination dots on the slider', 'Enable infinite looping functionality for the slider', 'Enable Autoplay functionality for the slider', 'Set the default number of testimonials to display per slide', and 'Set Slider Speed'.
- Breakpoints:** A table for defining breakpoints for creating a responsive slider. Red arrows point to the table with labels: 'Define breakpoints for creating a responsive slider' and 'Design considerations for the testimonial slider'.
- Design Options:** A dropdown menu for selecting a design template. A red arrow points to it with the label 'Design considerations for the testimonial slider'.
- Testimonial Design Preview:** A preview image of the selected testimonial template. A red arrow points to it with the label 'Preview image for the design of the testimonial slider'.

**Arrow for slider** - Enable arrow on slider via the Yes/No option

**Dots for slider** - Enable dots on slider via the Yes/No option

**Enable infinite looping** - Enable infinite looping on slider via the Yes/No option

**Autoplay Slider** - Enable autoplay on slider via the Yes/No option

**Autoplay Slider speed** - Set autoplay slider speed.

**Default Slides to scroll** - Set testimonials per slide.

**Default Slicks to scroll** - Set testimonials per slick.

**Slider speed** - Set Slider speed.

**Breakpoints** - Set Breakpoints to create responsive sliders for different sizes of windows(screens).

- **Breakpoint** - Set Breakpoint value
- **Slides to scroll** - Set testimonials per slide.
- **Slicks to scroll** - Set testimonials per slick.
- **Dots** - Enable dots on the slider via the Yes/No option
- **Infinite** - Enable infinite looping on the slider via the Yes/No option

**Design Options** - Set select Design template Options for the frontend testimonial slider.

**Testimonial Design Preview** - Shows preview image of selected testimonial template.

# Extension Usage

Once the testimonial module's functionality is enabled from the configuration, the testimonial Grid tab **"Manage Testimonials"** becomes accessible for display.

## Add the Testimonial From the Backend

The screenshot shows the 'Add New Testimonial' form in the Magento 2 backend. The form is located on the 'Testimonials' grid page. The form fields are as follows:

- Enable:** A toggle switch set to 'No'. An annotation points to it with the text 'Control visibility of testimonial on front slider'.
- Image:** A section with 'Upload' and 'Select from Gallery' buttons. Below the buttons is a placeholder image of a woman. An annotation points to it with the text 'Testimonial Image'. Below the image is the text 'pneegg.png' and '528x528, 29 KB'.
- Customer First Name:** A text input field containing 'Veronica'. An annotation points to it with the text 'Customer First Name'.
- Customer Last Name:** A text input field containing 'Costello'. An annotation points to it with the text 'Customer Last Name'.
- Customer Email:** A text input field containing 'roni\_cost@example.com'. An annotation points to it with the text 'Customer Email'.
- Testimonial Ratings:** A dropdown menu showing '4'. An annotation points to it with the text 'Testimonial Ratings'.
- Customer Designation:** A text input field containing 'Developer'. An annotation points to it with the text 'Customer Designation'.
- Customer's Company name:** A text input field containing 'MageINIC'. An annotation points to it with the text 'Customer's Company name'.
- Company's website:** A text input field containing 'http://mageinic.com'. An annotation points to it with the text 'Company's website'.
- Testimonial Title:** A text input field containing 'Amazing!'. An annotation points to it with the text 'Testimonial Title'.
- Testimonial Content:** A rich text editor containing the text 'I bought this plugin and would like to recommend it to anyone interested in building a website without knowledge of PHP or HTML. It is very convenient and the customer service is very reactive.' An annotation points to it with the text 'Testimonial Content'.
- Testimonial Store View:** A dropdown menu showing 'Main Website'. An annotation points to it with the text 'Testimonial Store View'.

Please go to **Add New Testimonials** on the testimonial grid page.

**Enable** - Enable the testimonial in the slider via the Yes/No option

**Image** - Upload the testimonial image.

**First Name** - Add the First Name of the customer.

**Last Name** - Add the First Name of the customer.

**Email** - Add the Email Address of the customer.

**Ratings** - Select the Rating value by Dropdown.

**Designation** - Add the Designation of the customer.

**Company** - Add the Company Name of the customer whom they are working with.

**Website** - Add the Company's Website of the customer whom they are working with.

**Store View** - Select Store View for the current Testimonial.

**Title** - Add Testimonial title.

**Contents** - Add Testimonial content.

## Shows Pending Testimonials count on the Menu Tab

The screenshot shows the MageINIC dashboard interface. On the left, a dark sidebar menu contains various navigation options. The 'Manage Testimonials' option is highlighted, and a red box with the number '1' is placed next to it. A red arrow points from this box to a text annotation: 'Indicates whether a new testimonial has been added or an existing testimonial has been edited by the Customer.' The main content area displays a 'Testimonials' section with a 'Reload Data' button. Below this, there's a 'Go to Advanced Reporting' button. A summary section shows 'Revenue \$0.00', 'Tax \$0.00', 'Shipping \$0.00', and 'Quantity 0'. A 'Chart is disabled' message is also present. At the bottom, there's a table with columns 'Items' and 'Total', and another table with columns 'Product', 'Price', and 'Quantity'.

Items	Total
1	\$34.00
1	\$34.00
1	\$54.00
1	\$5.00
1	\$59.00

Product	Price	Quantity
Push It Messenger Bag	\$45.00	6
Ur-Satellite UR-105 TA RGG	\$20.00	2
Joust Duffle Bag	\$34.00	2
Fusion Backpack	\$59.00	2
Olivia 1/4 Zip Light Jacket-XS-Black	\$77.00	1

The pending testimonial count becomes visible to customers when they add a new testimonial or make edits to existing testimonials.

## Add a testimonial via Widget form

The screenshot shows the 'Add a testimonial via Widget form' interface. On the left is a sidebar with a list of widget categories: Row, Columns, Tabs, Elements, Text, Heading, Buttons, Divider, HTML Code, Media, Image, Video, Banner, Slider, Map, and Add Content. The main area is a form titled 'Widget Options' for the 'Testimonial slider Widget'. At the top, there's a yellow banner with the message 'Inserting a widget does not create a widget instance.' and buttons for 'Cancel' and 'Insert Widget'. The 'Widget Type' dropdown is set to 'Testimonial slider Widget'. Below this, the 'Widget Options' section includes text input fields for 'Testimonial Slider Heading' and 'Testimonial Slider Sub-Heading'. There are several toggle options: 'Arrow for slider' (Yes), 'Dots for slider' (Yes), 'Infinite looping' (Yes), and 'Autoplay Slider' (Yes). Below these are input fields for 'Auto speed' (500), 'Default Slides to Show' (1), 'Default Slicks to Scroll' (1), and 'Slider speed' (400). A 'Design Template' dropdown is set to 'Default Design Template'. At the bottom, a 'Design Preview' section shows three thumbnail images of different testimonial slider designs.

**Testimonial Slider Heading** - Put Heading Of Testimonial Slider.

**Testimonial Slider Sub Heading** - Put Sub Heading Of Testimonial Slider.

**Arrow for slider** - Enable arrow on slider via the Yes/No option

**Dots for slider** - Enable dots on slider via the Yes/No option

**Infinite looping** - Enable infinite looping on slider via the Yes/No option

**Autoplay Slider** - Enable autoplay on slider via the Yes/No option

**Auto speed** - Set autoplay slider speed.

**Default Slides to scroll** - Set testimonials per slide.

**Default Slicks to scroll** - Set testimonials per slick.

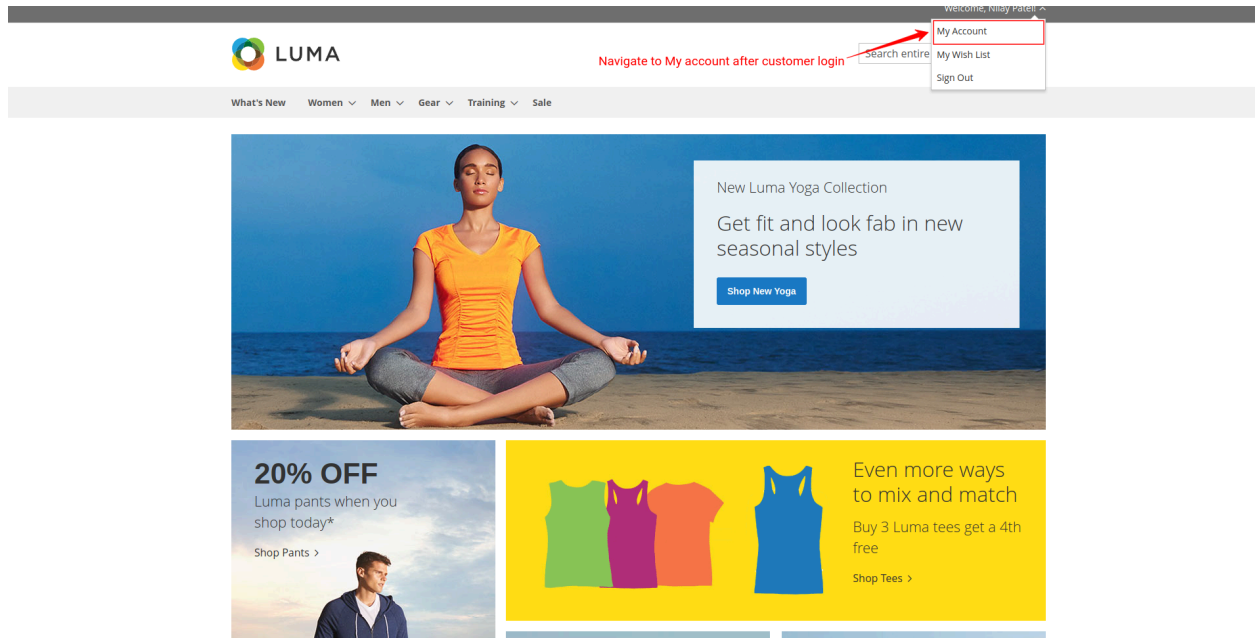

**Slider speed** - Set Slider speed.

**Design Template** - Set select Design template Options for the frontend testimonial slider.

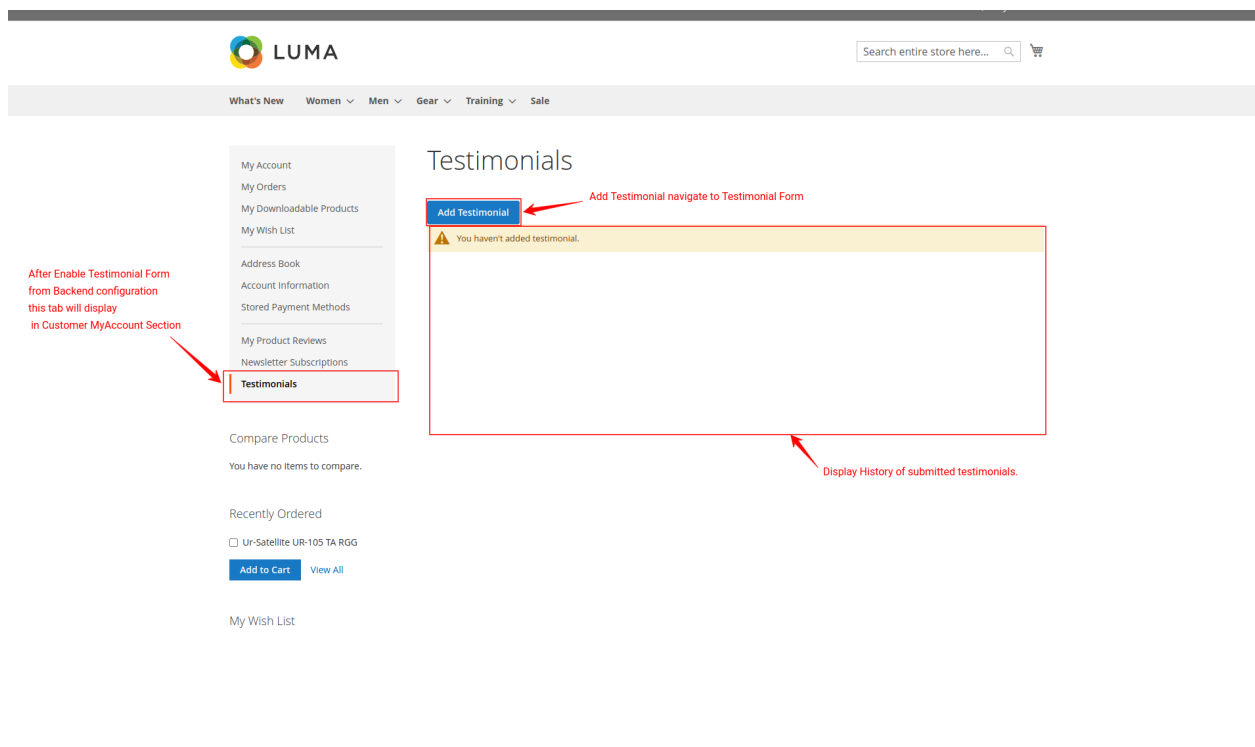

**Design Preview** - Shows preview image of selected testimonial template.

## Testimonial add from frontend

Login with customer Username and password.  
Please go to Customer **MyAccount**.

- After that navigate to **Testimonials** Tab in Customer My Account, The testimonial History Grid Shows with add testimonial button

- Submit Testimonial form

The screenshot shows the 'Add Testimonial' form on the LUMA website. The form is titled 'Add Testimonial' and includes several input fields and a text area. Red arrows point to specific fields with labels explaining their functionality or content.

- Title \***: Labeled 'Testimonial Title'.
- Rating**: Labeled 'Testimonial Ratings'.
- First Name \***: Labeled 'The current customer's First Name will be set automatically in this Field'.
- Last Name \***: Labeled 'The current customer's Last Name will be set automatically in this Field'.
- Email \***: Labeled 'The current customer's email address will be set automatically in this Field'.
- Designation \***: Labeled 'Designation Post'.
- Company \***: Labeled 'Company's name'.
- Company's Website \***: Labeled 'This Field display after Enable website field in the admin configuration, this is company's website Field'.
- Upload Image \***: Labeled 'Upload Customer's image'.
- What's on your mind? \***: Labeled 'Add Testimonial Content'.
- Submit** and **Cancel** buttons: Labeled 'Submit Form' and 'Cancel Form' respectively.

**Title** - Add Testimonial title.

**Ratings** - Select the Rating value by Dropdown.

**First Name** - Add the First Name of the customer.

## Testimonial Slider on Home Page

The screenshot displays the Luma website interface. At the top, there is a navigation bar with the Luma logo, a search bar, and a shopping cart icon. Below the navigation bar, a horizontal menu lists categories: What's New, Women, Men, Gear, Training, and Sale. The main content area features a testimonial slider titled "What Our Clients Say !!". The slider contains three testimonials from Veronica Costello, Nilay Patel, and Adam Black, all developers/programmers for MageNVC. Below the testimonials, there is a product banner for the "New Luma Yoga Collection" featuring a woman in a yellow yoga top. The banner includes the text "Get fit and look fab in new seasonal styles" and a "Shop New Yoga" button. Red annotations highlight the testimonial slider and its sub-heading, and a red arrow points to the testimonial slider after enabling the home page from the backend configuration.

Testimonials slider after enabling  
home page from backend configuration

# Add Testimonial Slider Programmatically

## Add Testimonial Slider in layout files.

```
<block class="MageINIC\Testimonial\Block\Widget\Testimonial"
name="mageinic.block_unique_name.slider">
    <action method="setHeading">
        <argument name="heading" xsi:type="string">Happy Customers</argument>
    </action>
    <action method="setSubHeading">
        <argument name="sub_heading" xsi:type="string">There Testimonials</argument>
    </action>
    <action method="setArrowSlider">
        <argument name="arrow_slider" xsi:type="string">1</argument>
    </action>
    <action method="setDotsSlider">
        <argument name="dots_slider" xsi:type="string">1</argument>
    </action>
    <action method="setInfiniteLooping">
        <argument name="infinite_looping" xsi:type="string">1</argument>
    </action>
    <action method="setAutoPlay">
        <argument name="autoplay" xsi:type="string">1</argument>
    </action>
    <action method="setAutoplaySpeed">
        <argument name="autoplay_speed" xsi:type="string">1500</argument>
    </action>
    <action method="setDefaultSlide">
        <argument name="default_slide" xsi:type="string">3</argument>
    </action>
    <action method="setDefaultSlick">
        <argument name="default_slick" xsi:type="string">1</argument>
    </action>
    <action method="setSliderSpeed">
        <argument name="slider_speed" xsi:type="string">400</argument>
    </action>
    <action method="setTemplate">
        <argument name="template"
xsi:type="string">widget/testimonial/default-design.phtml</argument>
    </action>
</block>
```

## Add Testimonial Slider in .phtml file

```
<?= $this->getLayout()->createBlock(\MageINIC\Testimonial\Block\Widget\Testimonial::class)
->setHeading("Your Heading")->setSubHeading("Your sub-Heading")
->setArrowSlider("1")->setDotsSlider("1")
->setInfiniteLooping("1")->setAutoPlay("1")
->setAutoplaySpeed("1500")->setDefaultSlide("3")
->setDefaultSlick("1")->setSliderSpeed("400")
->setTemplate("widget/testimonial/default-design.phtml")->toHtml() ?>
```

## Add Testimonial Slider in CMS Page, Block, etc.

```
{{widget type="MageINIC\Testimonial\Block\Widget\Testimonial" heading="Happy Customers"
sub_heading="There Testimonials" arrow_slider="1" dots_slider="1" infinite_looping="1"
autoplay="1" autoplay_speed="1500" default_slide="3" default_slick="1" slider_speed="400"
template="widget/testimonial/fourth-design.phtml" name="mageinic.block_unique_name.slider"}}
```

- You can also use insert widget and add this widget in CMS Page and Block

## Note

- In cases where the widget attribute is not supplied, the module will retrieve the value from the store configuration. However, it is important to note that providing a **template** is mandatory in these situations..
